All teams are required to provide Glasgow 2018 with details of any radio equipment they intend to operate during the Championships. This is to enable spectrum management between all radio equipment in use during competition to avoid any disruption to event operations, results or broadcast. UK law is very strict regarding radio spectrum usage. Any team using equipment without an appropriate licence will be subject to prosecution and confiscation of the equipment.

As previously instructed, in the Cycling Bulletin, all teams should have registered their radio equipment by completing the radio spectrum registration form by 30 March 2018. Any applications submitted after this date may not be approved. Teams will be issued with a permit to operate their equipment at the Championships.

Posts may not include any information, which is confidential or private, in relation to any other person or organisation. Social media posts and blogs should at all times support the spirit of the Championships and shall not be discriminatory, offensive, hateful, defamatory or otherwise illegal and shall not contain vulgar or obscene words or images.

- Intrude upon the privacy of participants or other accredited persons and entities
- Interfere with the competitions or the ceremonies of the Championships
