Dear UEC Electoral and Voting Monitoring Commission,

inspired by the european and world cycling system, I am writing to express my interest in the position of the member of the UEC management board. Currently I am working for the Slovak Cycling Federation as a General Secretary. My role is managing the administration of the federation, organizing the management board meetings, registration of national teams for international cycling events and communication with Ministry of Sport, The Olympic Committee, Union Européenne de Cyclisme, Union Cycliste Internationale, National Sport Center and National Anti-doping Agency.

I am a member of the organizing committee of the biggest race in Slovakia – Tour de Slovaquie, as well as other races organized by Slovak Cycling Federation. I am not afraid of challenges, and I consider myself an empathetic and reliable person with an active and positive approach to work, but also in private life. I speak English, German and some French.

Thanks to my several years of experience working as a General Secretary in the Slovak Cycling Federation, I am highly skilled at different activities. The organisation of marketing and cycling events required flexibility and proper time management at meetings with partners. I have learned to cope with stressful situations and adapt to changing circumstances. All these experiences challenged me to be creative, dedicated and patient. One of my interest is that riders are successful in cycling, and are able to make an accurate decisions for their lifetime, to make a determination sportsmanship and teamwork because only joint efforts of a team can

lead to victory. During the UEC and UCI Congresses I have made many friends and contacts from various federations and that is one of the reason why I would like to work on the international projects. In 2021, I was elected to the UEC management board for the first time. My intention for the future in the UEC Management Board is continue to work for the development of cycling, to build cycling in less developed countries and building up visions for the future.

My next goal is to work where can I develop professionally and combine my range of experience and ability. I am responsible and I always take ownership of the tasks that are entrusted to me. I am a fast learner and I welcome every opportunity to discover new interesting areas and ideas. I believe that my extensive experience, my communication and listening skills, my knowledge of foreign languages and personal characteristics make me a suitable candidate for this position.

Cycling is a part of my life and as a part of my activity for pleasure and health. It will be a great honor for me to be part of the international cycling family again.

Thank you for taking your time to review my letter.
