## Candidacy for UEC Managing Board

I have been passionate about sports from a young age, initially playing football at a competitive level before transitioning to marathon running. In 2000, I discovered cycling, which has since become my greatest passion.

With my enthusiasm for the sport, my extensive network, and my professional expertise, I have taken on various voluntary roles in cycling. Since 2023, I have been serving as Vice President of German Cycling (Bund Deutscher Radfahrer e.V.), where I am particularly responsible for representing German Cycling internationally.

In recent years, I have actively participated in UCI and UEC congresses, as well as World Championships, European Championships, and the Olympic Games as a representative of German Cycling. My goal is to further strengthen the international presence of German Cycling and actively contribute to the development of cycling at the European level.

I would be honored to take on a role within the UEC Managing Board to support and advance the growth of cycling across Europe. My experience in sports governance, strategic leadership, and international representation will enable me to bring valuable insights to the UEC. I am committed to working collaboratively with all stakeholders to enhance the future of cycling and ensure its continued success.
