Dear Sirs,

Hereby I am announcing my candidacy for the UCI Management Committee. Since my childhood sport has been an extremely important part of my life but I have made a decision to proceed my professional career in a business. Since almost 30 years I have had different management positions mostly in a big international groups. Curently I am Managaing Director of Holcim Slovenia and member of the Executive committee in the CE cluster.

Still through all my life I have been active in different sports but cycling is the most important and my favourite. Few years ago I have made a decision to run for a President of the Slovenian Cycling Federation. My primary motivation for such a step was wish to support the Federation and development of Slovenian cycling sport with all my experience, knowledge, contacts, energy and passion that is driving me through the life.

I have gained the trust of the members of the Federation and have been elected for the president. Federation was in a very bad situation, especially financially but also in terms of the general organization and processes was not at the right level. After good three years of my presidency the Federatin is financially stable, also organization has developed strongly. Our races and events have grown at all levels and are now always success story. At the same time we have strongly developed and invested into our juniors' programs and the results have been proving we are good on a way. Of course one of our responsibilitie si also offering our Elite teams best possible conditions in order for riders to be able to only focus on racing. And we are succesful also in this field. The federations has also got involved strongly into Tour Of Slovenia where our role is every year more important and bringing added value.

I am also a member of the executive committees of Slovenian Olympic Committee since 2022 and Karate Club Ljubljana for more than 10 years. I am also proud for being a mentor for young entrepreneurs for several years already.

Now I would also like to involve myself stronger out of Slovenia and bring added value to the European and World cycling sport. If being elected as one of the UEC representative at the UCI management committee I would perform my responsibilities in a transparent and honest way with courage and fairplay.

Thank you and best regards,
Pavel Marđonović
